Only high school athletes (including grade 9) are eligible for the Simplot Games. Athletes must meet at least one of the above standards to qualify. The standard must have been met at an indoor competition in the current indoor season. Last year's results are not eligible. In addition to meeting one or more standard times, attendance, attitude, and effort at training will be taken into consideration when selecting athletes for this meet. If less than four people meet a standard, we will consider taking an athlete who is very close to a standard. Those interested in attending the Simplot Games should let the coaches know as soon as possible, so that preliminary arrangements can be made.
